Motorcycle, Bodyworn Terminal Interface/ PTT

ITEM 01

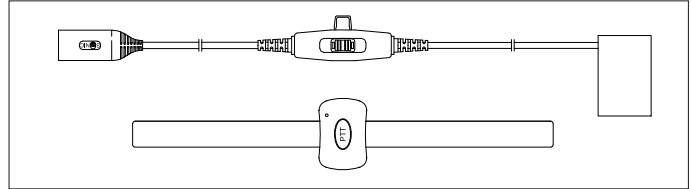

Description:

Allows motorcycle helmet communications to be connected directly to a body worn radio terminal. A local PTT switch is provided on the central interface together with an adjustable clothing clip.

The system also features a weatherproof, Ruggedised Wireless handlebar PTT switch which is mounted to the left hand handlebar grip for ease of operation whilst riding.

The Wireless Handlebar PTT unit is "paired" to the central interface to prevent operation from other "wireless" PTT's operating in close proximity. Re-pairing can be simply carried out by the User if required. Operational range, 3-5 metres.

Configurable for:- Sepura SRH3500/3800 and SRC3300, Motorola MTH650/800 and EADS THR880i. Other radio types available on request.

Covert, Bodyworn Microphone/Inductor

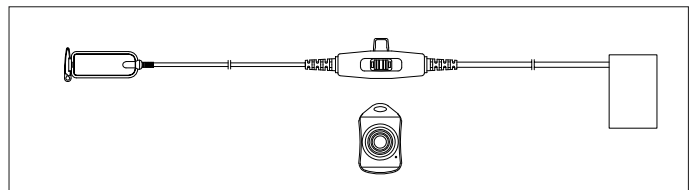

ITEM 02

Description:

Allows the user to communicate covertly using a body worn radio terminal and covert wireless earpiece (not included) The system offers a local PTT switch and a 'low profile' Wireless PTT only keyfob.

The Wireless Keyfob PTT is "paired" to the central interface to prevent operation from other "wireless" PTT's operating in close proximity. Re-pairing can be simply carried out by the User if required. Operational range, 3-5 metres.

Configurable for:- Sepura SRH3500/3800 and SRC3300, Motorola MTH650/800 and EADS THR880i. Other radio types available on request.

Wireless Upgrade Kit for Sepura SRH/C Only

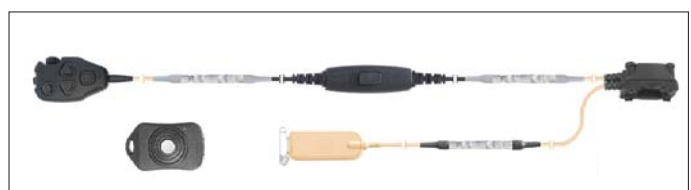

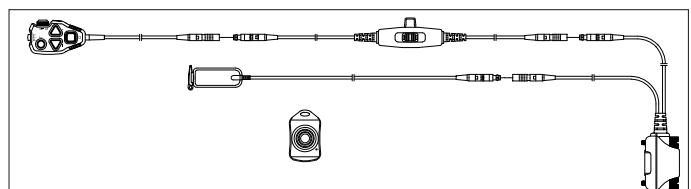

ITEM 03

Description:

Enhances existing Sepura wired Remote Control Unit (RCU) to support a 'low profile' Wireless PTT only keyfob transmitter.

The Wireless Keyfob PTT unit is "paired" to the central interface to prevent operation from other "wireless" PTT's operating in close proximity. Re-pairing can be simply carried out by the User if required. Operational range, 3-5 metres.

Configurable for: - Sepura SRH3500/3800 and SRC3300 Only.

Firearms/Tactical Interfaces (HIU/RAT-2)

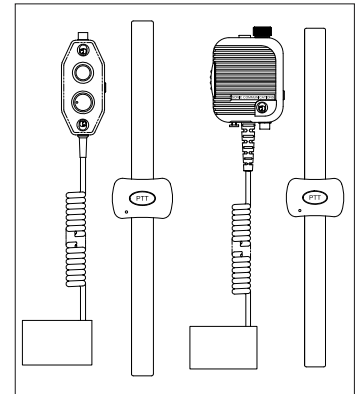

ITEM 04

Description:

The HIU and RAT-2 are now both available with Wireless functionality. Suitable for Firearms, Intervention and Sniper applications, both the HIU and RAT-2 offer their own individual features plus Wireless PTT in the form of a rugged, weatherproof PTT switch. The switch can be handheld or mounted to the stock/grip of a firearm.

The Wireless PTT unit is "paired" to the central interface to prevent operation from other "wireless" PTT's used in close proximity. Re-pairing can be simply carried out by the User if required. Operational range, 3-5 metres.

Configurable for:- Sepura SRH3500/3800 and SRC3300, Motorola MTH650/800 and EADS THR880i. Other radio types available on request.

Wireless Remote PTT/Tone Keyfob

ITEM 05

Description:

A modified version of the standard Sepura SRH3500/3800 and SRC3300 Remote Control Unit (RCU), to allow the use of a low profile "wireless" keyfob to activate the PTT and Tone functions of the RCU. Normal operation of the RCU is retained.

Note: This product is currently not released, please contact your Sepura representative for further information.

The Wireless Keyfob PTT unit is "paired" to the RCU to prevent operation from other "wireless" PTT's used in close proximity. Re-pairing can be simply carried out by the User if required. Operational range, 3-5 metres.

Configurable for: - Sepura SRH3500/3800 and SRC3300 Only

Wireless Remote Control Unit (WRCU)

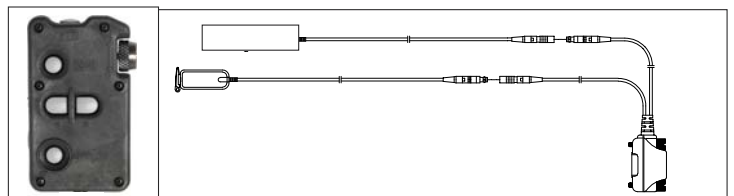

ITEM 06

Description:

Sepura SRH3500/3800 and SRC3300 Wireless Remote Control Unit (WRCU), with integral re-chargeable battery. All functions of the standard RCU are replicated with full wireless control of PTT, TONE, Talk-Group, Volume and an Option button (Programmable). The WRCU communicates directly with a wireless receiver module, connected to the Sepura facility connector interface lead, in place of the standard, wired RCU.

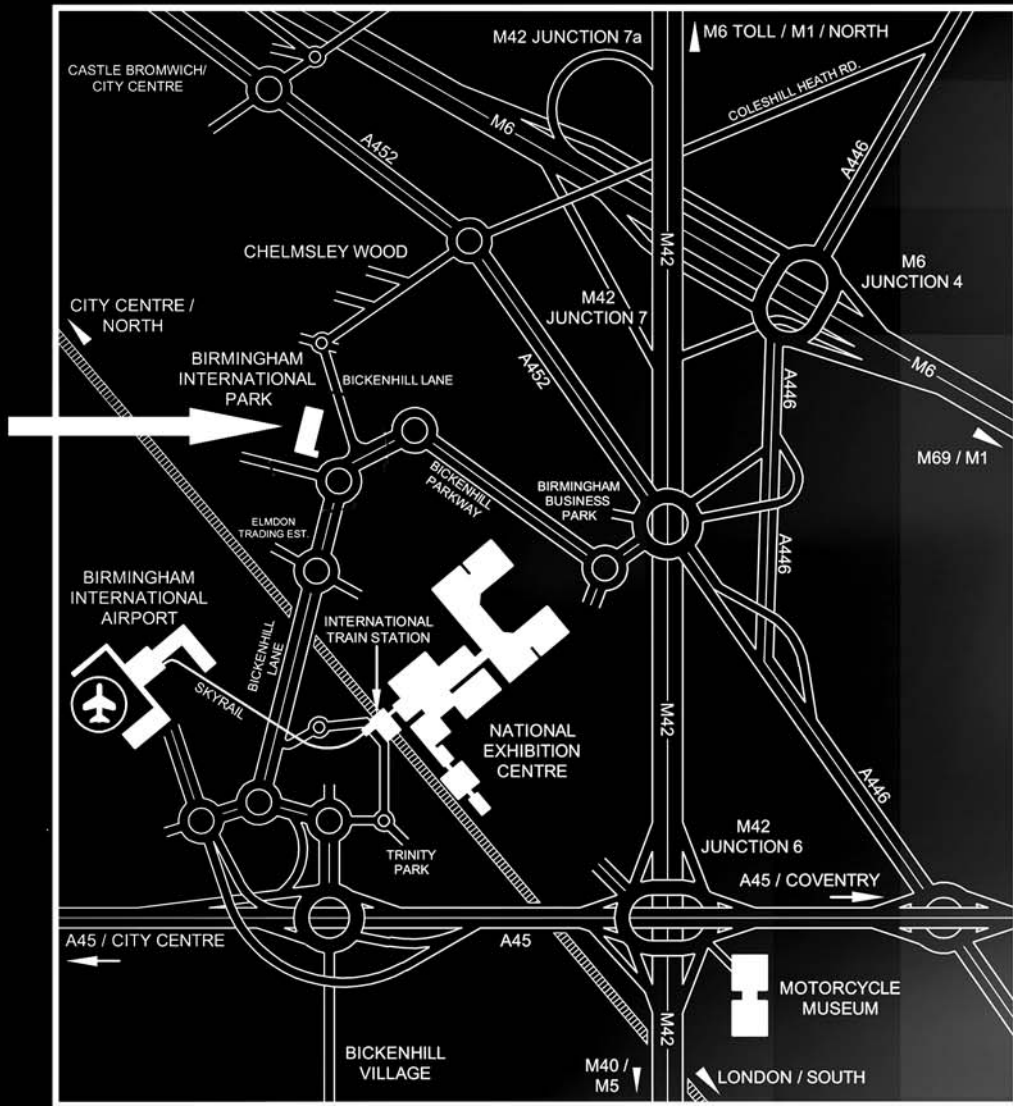

The Wireless RCU unit is "paired" to the receiver module to prevent operation from other "wireless" RCU's used in close proximity. Re-pairing can be simply carried out by the User if required. Operational range, 3-5 metres.

Configurable for: - Sepura SRH3500/3800 and SRC3300 Only
